

QKLG 2024: Principle — Collaborative leadership and teamwork

Nurturing confident and creative lifelong learners

How do teachers and educators in your service:

- recognise the strengths, knowledge and skills individuals bring to the team?
- promote respectful, evidence-informed professional conversations?
- critically reflect on pedagogies and practices?
- support each other's professional learning and growth?
- share information with others to support children's ongoing learning and progress?
